About Us

High Priority (Vital to a user's understanding of the page)	Medium Priority (Helpful and functional features that also contribute to a user's needs/tasks)	Low Priority (Nice components to have, but not absolutely required for a user to complete tasks)
1. Mission statement/simple phrase that offers a basic level understanding of what Math Adventure is. --Think of it as a catchy tagline. 2. Calls to action for registering, hosting, and volunteering. --This can be as simple as provide links to the appropriate pages for parents/hosts/volunteers to get more information. 3. Step-by-step description of what a Math Adventure event entails. You should incorporate links to YouTube videos, as embedding videos may take up too much screen real estate. -- The goal is to explain/show how an event works. --Consider incorporating information from the FAQ to put in here e.g., answers to "What can we expect during the event?" and "By the end of the event, what will the kids accomplish?"	1. Navigation bar for quick and easy access to other pages on the site. 2. Testimonials from parents/kids. 3. Image(s) of kids enthralled by Math Adventure event.	1. Current footer information (links for contact, donate, and 501(c)(3) note). 2. Social media plugins. --Perhaps make these icons a bit larger and more visible.

Hosting

High Priority (Vital to a user's understanding of the page)	Medium Priority (Helpful and functional features that also contribute to a user's needs/tasks)	Low Priority (Nice components to have, but not absolutely required for a user to complete tasks)
1. List of benefits for schools that choose to host. 2. Hosting details (what is required of schools in order for them to host). 3. Call to action for hosting. --Contact information + accompanying note that reads "If you'd like to host an event at your school, please email us.")	1. Navigation bar for quick and easy access to other pages on the site. 2. Request for information that would be helpful for you to know in order to plan the event (e.g., when would they like to have an event, how large their school is, how many members of the PTA can be of assistance).	1. Current footer information (links for contact, donate, and 501(c)(3) note). 2. Social media plugins. --Perhaps make these icons a bit larger and more visible.

Donate

High Priority (Vital to a user's understanding of the page)	Medium Priority (Helpful and functional features that also contribute to a user's needs/tasks)	Low Priority (Nice components to have, but not absolutely required for a user to complete tasks)
1. Call to action for donating. --Link/PayPal donation button. 2. Breakdown of money/details of how money will be used. 3. Quick blurb detailing why someone should donate.	1. Image(s) of kids having fun/deeply absorbed in a Math Adventure event. 2. Statement regarding how many schools/students Math Adventure has served for more credibility. 3. Section directing donators to volunteer. --Could be as simple as a note that reads "Can't donate? Help us foster a love for math by volunteering instead."	1. Current footer information (links for contact, donate, and 501(c)(3) note). 2. Social media plugins. --Perhaps make these icons a bit larger and more visible.

Register

High Priority (Vital to a user's understanding of the page)	Medium Priority (Helpful and functional features that also contribute to a user's needs/tasks)	Low Priority (Nice components to have, but not absolutely required for a user to complete tasks)
1. List/link of schools, where the call to action is to register. 2. The date events will be hosted at each school. The goal of the page should be to streamline/encourage the registration process from the perspective of a parent. What could you do that would make registering as painless and easy as possible?	1. Parent/kid testimonials. 2. Image(s) of team of kids having fun. 3. Information for parents of students that do not go to schools that are listed. --This information is meant for parents that would like their child to participate in these events, but their own school is not hosting one.	1. Current footer information (links for contact, donate, and 501(c)(3) note). 2. Social media plugins. --Perhaps make these icons a bit larger and more visible. 3. The "Should we come to your school? Tell us!" form.
